"Sao Tome and Principe's new targets will encourage green and sustainable blue economy. To reduce greenhouse gas emissions of sectors, we are hopeful that key development issues such as energy and waste management can be addressed."

How did UNDP support Sao Tome & Principe's New Climate Pledge?

UNDP supported Sao Tome and Principe's new climate pledge through the Climate Promise by strengthening resilience of key blue economy sectors and increasing renewable energy transition with envisaged RE generation of 49 MW.

Why is agriculture important in Sao Tome & Principe?

"Productive sectors such as fishery and agriculture, show high climate vulnerability in Sao Tome and Principe, just as in other Small Island Developing States. They are therefore central to the country's NDC to ensure resilience of the socio-economic fabric of the country, especially of the most vulnerable and poorest groups."

Why did the hydropower plant in Principe Island degrade?

As the demand for electricity grew, the country ceased the development of new projects for hydropower, and increased the installation of diesel generator units. Some of the mini hydropower plants started to degrade due to lack of proper maintenance. This was the case for the plant installed on the Papagaio river of Principe Island.
