

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Why did Puerto Rico get a power outage?

The announcement comes as the U.S. territory continues to struggle with chronic power outages that have worsened since Hurricane Maria pummeled the island as a powerful Category 4 storm in 2017, razing the electric grid. The outages also are blamed on a lack of maintenance and investment in its electric grid for decades.

When did Luma take over Puerto Rico's electric grid?

On the state of ongoing challenges: "LUMA took over as the transmission and distribution operator of Puerto Rico's electric grid in June 2021, only four years following the devastating impacts of Hurricane Maria.

What did Luma say about Puerto Rico?

In the prepared remarks, LUMA also reaffirmed its commitment to Puerto Rico and continuing to build on the historic progress that the over 4,000 LUMA team has made over the last 39 months since taking over operations of the T&D system. The following are excerpts from Juan Saca's remarks, as prepared for delivery to members of the House Committee.
