

Sierra Leone pasat roofing and solar energy

Where is the 50MW Planet Solar PV project located in Sierra Leone?

The 50MW Planet Solar PV project is split in four different locations in Sierra Leone, consisting of a 12MW power plant under construction in BO/Kenema, a 4.05 MW (DC) power plant to be constructed in Port Loko, a 25MW power plant under construction in Makoth and a 10MW power plant under construction in Kono.

Why is solar power costly in Sierra Leone?

Solar power is delivered at a very high cost in Sierra Leone, despite the country having an estimated hydro project potential of more than 1000MW and abundant sunlight for solar power generation, with opportunities above 240 MW.

What will GOSL do for Sierra Leone?

GOSL will remove barriers hampering the effective development, implementation and dissemination of renewable energy technologies. Also, the draft Energy Policy estimates that Solar PV generation capacity in Sierra Leone is expected to start at 31 MW in 2020 and increase to 156 MW by 2023.

Does Sierra Leone have a solar energy resource?

Ministry of Finance The Government of Sierra Leone (GoSL) recognises that the country is endowed with a significant solar energy resource. This potential however remains largely untapped.

Do Sierra Leone laws apply to a project financed infrastructure project?

In most cases the Government insists on applying Sierra Leone laws exclusively to the entire IPP project, but because Sierra Leone's laws are not sufficiently developed to deal with the complexities of project financed infrastructure contracts Sierra Leone, investors and especially lenders, insist that the laws of other jurisdictions be applied.

Does Sierra Leone have duty-free & GST exemptions for solar PV equipment?

Despite these duty-free and GST exemptions for the solar PV equipment in Sierra Leone, the process of its application is reported to take quite long and more stream-lining and clear procedures of collaboration between the institutions is needed.
