Does Barbados use solar panels?

Solar panels are seen more and more frequently across Barbados. Similar to the ubiquitous solar water heater on Barbadian rooftops, the Government of Barbados is fully committed to the idea of renewable energy and solar PV, thereby preparing the country for even more substantial growth in this sector.

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

What is the installed solar PV capacity in Barbados?

The total installed solar PV capacity in Barbados is about 22MW(12MW RER +10MW utility).

How many solar PV community solar gardens are there in Barbados?

Blue Circle Energy has over 40 solar PV Community Solar Gardens under development in Barbados, ranging in size from 250kW to 5MW. The project sites are distributed throughout the island, are located in each of Barbados' 11 parishes, and are sited and scaled to integrate with the community's natural and agricultural heritage.

Do Barbadians use solar energy?

Approximately 50% of all households in Barbados have 50,000 installations of solar energy systems. This awareness and usage of solar energy have increased due to the significant decrease in costs over the past few years.
