This translates into an additional \$9,274 for the median valued home nationally. The study found that the solar boost was higher in the New York metro area than the national average, topping out at 5.4% - with the NYC solar premium being 1.8% more than it is statewide. That's an extra \$23,989 in value for solar home owners in the five boroughs.

As your solar panels age, you may start to notice a decline in their power production and efficiency and they'll become less effective at converting the sun's energy into power. This is known as the solar panel degradation rate. On average, solar panels degrade at a rate of around 0.5% per year. Some of the top-quality solar panels come ...

The installation cost of solar panels and electricity bill savings depend on local electricity rates, the solar company you choose, how much sunlight your roof gets, and the rebates and tax incentives available near you. On average, solar panels pay for themselves after 10 years, making them a worthwhile investment for many

homeowners.
