Why switch to solar power. Sri Lanka is one of the most expensive energy markets in the world. The use of solar can significantly reduce or eliminate your electricity bill as well as ensure an uninterrupted power supply. The average payback on solar power in Sri Lanka is 5 years. After this payback period, you are earning money on your roof.

The new solar tariff for rooftop solar power systems in Sri Lanka is Rs. 37 per kWh for systems with capacities up to 500 kW and Rs. 34.50 per kWh for systems with capacities greater than 500 kW. This tariff applies to new customers coming under the "Net Accounting", "Net Plus" and "Net Plus Plus" schemes.

Bought 8 460w JA solar panels from Macksons solar and I highly recommend their customer service. Contacted Mr. Dasun Harshana and deposited money and got the panels from their warehouse. Panels were well kept in their warehouses and all the bills were handed over to me at the delivery. Really appreciate the effort of Mr. Dasun and the team.

Like most people in Sri Lanka I too was on the look out for a viable solution to the looming power bill. I came across REM Solar on FB amongst many other vendors all of whom I contacted . The response however was totally different from REM, the response to educate on the workings of the system was primary rather than to make a sale.
