

Make sure you know both the total cost of the system and the price per watt of solar installed. The cost per watt makes it easier to compare prices between quotes and gives you a better idea of how fairly the system is priced. The average price of solar is about \$2.06 to \$3.1 per watt in Florida, so anything in that range is a fair price.

A solar system that is designed, installed, and maintained well will operate for more than 20 years. The basic solar panel has no moving parts and can last well over 30 years. The panels that Compass Solar Energy installs have a power guarantee of 25 or 30 years.

Today's premium monocrystalline solar panels typically cost between \$1 and \$1.50 per Watt, putting the price of a single 400-watt solar panel between \$400 and \$600, depending on how you buy it. Less efficient polycrystalline panels are typically cheaper at \$0.75 per watt, putting the price of a 400-watt panel at \$300.
