

Will AMEA power build a solar photovoltaic plant in Djibouti?

Emirati independent power producer (IPP) AMEA Power has signed agreements to build a solar photovoltaic plant in Djibouti. With a capacity of 30 MWp, the construction of the solar plant will be done in the framework of a public-private partnership (PPP).

Where does Djibouti's energy come from?

Most of Djibouti's energy supply, around 80%, is sourced from neighboring Ethiopia. At the end of 2023, Djibouti was among the select few countries throughout the world that had yet to install any PV capacity, according to the International Renewable Energy Agency (IRENA).

Will AMEA Power Invest in Djibouti's first IPP project?

The solar plant is the country's first IPP project and will be developed under a BOOT model. "The Sovereign Fund of Djibouti (FSD) will be joining the project before financial close as a minority shareholder," AMEA Power said, without providing additional details.

What is a power purchase agreement (PPA) in Djibouti?

AMEA Power has secured a power purchase agreement (PPA) for a 25 MW solar-plus-storage project in Djibouti. It will be the country's first independent power producer (IPP) project and is now in development under a build-own-operate and transfer (BOOT) framework.

Does Djibouti have a geothermal potential?

Djibouti is also banking on its geothermal potential with the start of drilling in the Lake Assal area. In addition to electricity production, this East African country wants to exploit the natural heat of its subsoil for various uses, particularly in the industrial and agricultural sectors.

What is AMEA power's 25-year PPA for Djibouti?

Dubai-based AMEA Power has secured a 25-year PPA from Djibouti's state-owned utility, *Electricité de Djibouti (EDD)*, for a 25 MW solar-plus-storage plant it plans to build in Grand Bara, south of the national capital. The solar plant is the country's first IPP project and will be developed under a BOOT model.

Dubai-based AMEA Power has secured a 25-year PPA from Djibouti's state-owned utility, *Electricité de Djibouti (EDD)*, for a 25 MW solar-plus-storage plant it plans to build in Grand Bara,...

How Djibouti will produce 100% green energy by 2035. In September 2023, Djibouti inaugurated its first wind farm in the north of the country. Add solar farms, geothermal power and biomass plants, and Djibouti hopes to become the first country on the continent to supply its population with 100% renewable energy.

The Grand Bara solar photovoltaic power plant project is being developed by Djibouti Wind Company, a special purpose company owned by four partners: Africa Finance Corporation- a pan-African Multilateral Development Financial Institution; Climate Fund Managers (CFM)- a leading boutique investment manager dedicated to securing a sustainable ...
