

Solar power roof panels St Vincent and Grenadines

If the drilling is successful--Saint Vincent is in a geothermal zone and has an active volcano--the country hopes to be about 75 percent renewable by 2021, Dacon said in an interview last November. For the smaller islands, which now get their electricity from diesel power stations, solar energy is the go-to solution.

Auxin Solar, founded in 2008, is an American manufacturer of solar panels and solar mounting rack systems and a system developer of solar power plants. Its solar panel factory and corporate headquarters are located in San Jose, California. Auxin ...

island St. Vincent, and the Grenadines islands of Bequia, Union Island, Canouan, and Mayreau. The company operates diesel and small hydro power stations on mainland St. Vincent, while the Bequia, Union Island, Canouan and Mayreau islands are completely reliant on diesel powered systems. The other Grenadines islands are supplied by privately
