A 3kVA Solar System is one of the most popular sized Residential Solar Systems in Zimbabwe. A 3KVA Solar Power System will generate approximately 12 units of electricity (called kilowatt-hours or kWhs) per day. As mentioned, this is about 2/3 of the electricity usage of a modest Zimbabwean home.

An affordability analysis shows that at 160 FCFA/day (the entry price of BBOX's solar home product in Togo), the current potential market is ~280,000 units. Over 30% of off-grid households can afford a solar system on instalment at this price. Reducing the price to 85 FCFA per day may increase demand for off-grid solar products, leading to a
