The consumer continues to consume electricity supplied by Connect Saint Helena Ltd when the consumer's PV system is not operational (for example, at night, during bad weather, or when the PV system is undergoing maintenance). These Guidelines are primarily intended for consumers who have PV systems connected to the

Top solar panels specialists tips. Solar panels are becoming a more affordable and economically sound proposition for many South Africans, both on a residential and business level in order to keep electrical and electronic appliances and machinery operating during power outages, as well as to curtail expensive electricity costs, particularly in the operation of residential hot water ...

Connect Saint Helena Ltd (Connect) has today signed a Power Purchase Agreement with PASH Global to provide wind turbine, solar power and battery storage capacity to St Helena, significantly increasing the amount of renewable energy capacity on the Island and resulting in the majority of the Island's energy needs being met by renewable sources. ...

On 12 August 2014, ExCo agreed to the allocation of €1m of extra funding to build a new solar farm for electricity generation on St Helena. The new funding has been identified specifically to support only renewable energy projects, and must be spent in this financial year, 2014/15. ExCo was very supportive of this proposal as solar generated electricity [...]
