

Where is Eritrea's first solar plant?

The government of Eritrea has received a \$49.92 million grant from the African Development Bank to fund a 30 MW photovoltaic plant in the town of Dekemhare, 40 km southeast of the capital Asmara. It will be the country's first large-scale solar plant.

Why should Eritrea invest in a solar plant?

This initiative aims to address the energy needs of Eritrea while promoting sustainability and reducing carbon emissions. The solar plant is anticipated to contribute to the nation's energy independence and support its commitment to renewable energy development.

Does Eritrea have a solar farm?

Eritrea is lagging far behind in the electrification of its territory and is now turning to renewable energy. The government has launched the country's first solar farm, a 30-MW facility 30 km from the capital, Asmara.

How is electricity generated in Eritrea?

Eritrea's NDCs were developed in 2018. The majority of electricity generated in the country is from imported fossil fuels. In 2019, the electrification rate in rural areas of Eritrea was only 37%, compared to 76% in urban areas. Some projects financed by international donors are aimed at increasing these rates.

How much remittance does Eritrea receive from abroad?

However, worker remittances from abroad are estimated to account for 32 percent of gross domestic product. Eritrea has an extensive amount of resources such as copper, gold, granite, marble, and potash. The Eritrean economy has undergone extreme changes due to the War of Independence.

Solar electricity may seem like a gift from the Gods, but in fact it was an invention of man (perhaps God inspired), and it is not new. The photovoltaic (PV) effect was discovered in 18th century France, promoted by Germany's Werner von Siemens, and developed as a workable product by our own Bell Labs in 1954. But it was pioneers like Peter Varadi, with the ...

Eritrea has one of the lowest electrification rates in the world, and its lack of electrical resources continues to have a negative impact on the country's economic development. To the east of the capital Asmara lies a ...
