

Where are Sonnen batteries made?

With local manufacturing and assembling plants in California and South Australia, Sonnen has expanded into the US and Australian markets. Sonnen sold their first battery in 2011 and was honoured by MIT in 2016 as one of the 50 Smartest Companies 2016 worldwide.

Is Sonnen the most innovative energy company in Germany?

The business magazine 'brand eins' and Statista placed Sonnen among the most innovative energy companies in Germany. In the 'Energy and Environment' category, Sonnen was the only entrant to receive the highest rating among companies with 250 to 1,000 employees. How can we help you further?

Where is Sonnen energy based?

This idyllic village now operates entirely on renewable energy, a feat made possible by Sonnen's innovative energy storage solutions. With local manufacturing and assembling plants in California and South Australia, Sonnen has expanded into the US and Australian markets.

Is Sonnen a smart home energy storage company?

Intelligent home energy storage. As a fast-growing technology company, Sonnen is already active in more than 11 markets globally. Sonnen has received many awards for its innovative products and their rapid growth over the many years.

Are Sonnen batteries safe?

Sonnen batteries use lithium iron phosphate (LFP) cells, which are known for their safety, longevity, and durability. LFP cells are also less susceptible to thermal runaway, making them a safer choice for home and commercial use. Sonnen batteries have a modular design, which allows them to be easily installed and scaled up or down as needed.

Does Sonnen offer a solar battery system?

Sonnen offers two battery systems: the Sonnen EVO, which can be retrofitted to homes with an existing solar installation, and the Sonnenbatterie hybrid, an all-in-one system that includes a solar inverter.

Sonnen Hybrid: Sonnen Hybrid-batterijen combineren energieopslag met slimme energiebeheersystemen. Dit maakt ze geschikt voor zowel particuliere huishoudens als zakelijke toepassingen. Capaciteiten variëren van 5 kWh tot ...
