

What is the average payback on solar power in Sri Lanka?

The average payback on solar power in Sri Lanka is 5 years. After this payback period, you are earning money on your roof. Best choice when your bill is high and you have limited roof space. Zero your bill if you generate electricity as much as you consume. The energy you consume - Energy generated through solar = what you pay.

Why should you choose solar power in Sri Lanka?

Sri Lanka is one of the most expensive energy markets in the world. The use of solar can significantly reduce or eliminate your electricity bill as well as ensure an uninterrupted power supply. The average payback on solar power in Sri Lanka is 5 years. After this payback period, you are earning money on your roof.

How to get solar PV roof top installation in Sri Lanka?

Solar PV service providers (applicant company), having capacity to deliver the complete package of services including survey, design, supply of equipment/materials, installation & commissioning and post installation back up support must register at the Sri Lanka Sustainable Energy Authority to engage in Solar PV Roof Top installation in Sri Lanka.

We Genso Power Technologies (Pvt.) Ltd. is one of the fastest growing renewable energy company based at Colombo (Navinna), Sri Lanka. The company GENSO (simply "to Generate Solar") born as one of the pioneering solar Net Metering provider to the country in year 2012.

1. Solar power system (off-grid solar power system, solar street light system, solar garden light system) 2. Wind Power System 3. UPS and computer backup power 4. telecommunication system 5. Power station System 6. Railway System 7. Emergency lighting system 8. Automatic control system 9. Alarm system for fire protection, security

Going completely off grid is very possible. However with your bill, I assume you've at least one AC. If the power does go out, your solar battery may not be able to power your AC for long. However fans and other simpler electric items will work. The most important thing, speak to many solar companies as possible. Get as many options as you can.

The inverter is the heart of the solar system, with many perishable components like capacitors. So why settle for cheap Chinese inverters when you can get the world number 1 inverter SMA who had been in business from 1981 and ...
