

Leclanché, Solrid, and MPC Energy Solutions began construction on a solar-plus-storage project in St. Kitts and Nevis. The project involves pairing a 35.6 MW solar PV farm with 44.2 MWh of lithium-ion battery storage. The project will provide SKELEC with about a third of the island's energy needs through a 20-year PPA. Source: Energy Storage [...]

The 2021 Energy Report Card for St. Kitts and Nevis provides an overview of energy sector performance and includes energy efficiency, projects, technical assistance, workforce, training and capacity building information, subject to the availability of data. Click to view: [ERC_St.Kitts_final_002](#).

Over the past several years, St. Kitts and Nevis has implemented several energy efficiency and renewable energy projects. In 2014, a light bulb exchange program was launched to replace existing residential lighting with 323,000 LED bulbs at a cost of roughly \$2.5 million; the manufacturing sector underwent a comprehensive energy audit; and ...

The introduction of battery energy storage systems (BESS) facilities will greatly enhance the island's ability to integrate renewable energy into the grid, stabilise power supply, and reduce dependence on fossil fuels. While the exact battery chemistry in use has not been specified, the emphasis on BESS suggests a likely reliance on lithium-ion technology, which is ...
