

The Vertiv(TM) Liebert® Power-UPS Lithium is a compact and lightweight standby/offline UPS that utilizes lithium-ion technology to deliver a longer life expectancy, and reduced replacement costs. ... 3 battery backup with surge protection and 1 surge-only outlet Compact and lightweight design makes the Power-UPS Lithium a convenient UPS for any ...

Your standby battery should be tested annually in accordance with its service instructions. This is to ensure that the battery itself is good. I would not launch IFR with a standby battery that didn't pass the 20-second test. VFR, I would. This is without looking at the AFM to see if the standby battery is required for day VFR.

Touch Controls > Autopilot > Standby Mode. When Standby Mode is turned on, you can conserve Battery energy by disabling Standby Mode at these locations: Exclude Home - Disables Standby Mode at the location you set as Home in your Favorites list. Exclude Work - Disables Standby Mode at the location you set as Work in your Favorites list.
