

What makes Starz a great battery manufacturer?

Starz is striving to be the first and largest battery manufacturer in North Africa. Starz Energies R&D efforts aim to make energy storage more efficient, greener, and more affordable. Our Lithium-ion batteries possess higher performance than the average batteries in terms of density, power, charge time, calendar life and safety characteristics.

What makes Starz energies different?

Our assembly capabilities extend to the 18650, 32650, and some smaller prismatic cells. Using patented technology, Starz Energies focuses on long term partnerships with our clients to provide inherently safe, powerful, and reliable battery systems.

Why should you choose Starz energies?

Starz Energies is not only producing batteries cells, it provides expertise and custom design support. We are pursuing higher energy density, enhanced life cycle and calendar life, and better safety characteristics with cost optimization in mind. Our R&D efforts also include the production of anode and cathode as core activities. [Learn more](#)
