

What is stryten energy?

Stryten Energy helps solve the world's most pressing energy challenges with a broad range of energy storage solutions across the Essential Power, Motive Power, Transportation, Military and Government sectors.

Where are stryten batteries made?

Stryten batteries are manufactured in the U.S.A. through a robust domestic supply chain. We are proud to support our country's energy storage goals by offering multiple energy storage technologies that all play a role in the future of stored energy.

Will a storion Partnership benefit Largo & stryten energy?

Francesco D'Alessio, Chief Commercial Officer of Largo and President of LCE, stated: "We expect the Storion partnership with Stryten Energy to be highly beneficial to Largo and its clean energy storage investment strategy.

What services does stryten use?

Stryten relies on sister-company Motrex LLC to provide the personnel for our professional services roles, including information technology, finance and accounting, logistics, EH&S, project management, quality and human resources. Motrex provides the "people power" and expertise that are helping us solve the most pressing energy challenges.

Why did stryten buy storion energy?

Stryten has purchased the assets of Storion Energy Inc., a technology innovator of advanced vanadium redox flow battery technology. Renewable energy has many benefits, such as energy security through diversification of energy supply and reduced reliance on imported fuel. Energy generated by wind, solar and hydropower doesn't produce greenhouse [...]

What does stryten do with Continental batteries?

Stryten has entered into an agreement with Continental Battery Company to supply batteries for its automotive aftermarket business, which includes over 100 branches and a distribution network of more than 30,000 dealer locations.
