

Does Tunisia have a solar project?

Since the end of 2016, the Tunisian government has embarked on the implementation of its programme for development of electricity production from renewables. In this framework the Ministry of Industry and SMEs launched an international tender for solar PV projects in 2019 with a total capacity of 500MWac. Solar Back to overview Change location

What is the Tunisian Solar Plan?

The Tunisian Solar Plan contains 40 projects aimed at promoting solar thermal and photovoltaic energies, wind energy, as well as energy efficiency measures. The plan also incorporates the ELMED project; a 400KV submarine cable interconnecting Tunisia and Italy.

Does Scatec own a solar project in Tunisia?

Under construction In 2019, Scatec was awarded 20-year PPAs, with options for 10-year extension, with the Tunisian state utility STEG for the two solar projects totalling 120 MW. In August 2024, Scatec signed a partnership agreement with Aeolus SAS, part of the Japanese conglomerate Toyota Tsusho Group, to jointly develop and own the projects.

Where is the first large scale solar power plant in Tunisia?

The first large scale solar power plant of a 10MW capacity, co-financed by KfW and NIF (Neighbourhood Investment Facility) and implemented by STEG, is in Tozeur. TuNur CSP project is Tunisia's most ambitious renewable energy project yet.

Is Tunisia a good place to invest in solar energy?

Tunisia's climate presents a key solar energy opportunity and, together with an improved investment framework and a highly skilled workforce, the country should be well positioned support its ambitious Plan Solaire Tunisien. However, to date, Tunisia has fallen short of its intermediate solar PV targets.

How much money is needed to implement the Tunisian Solar Program?

The total investment required to implement the Tunisian Solar Program plan have been estimated at \$2.5 billion, including \$175 million from the National Fund, \$530 million from the public sector, \$1,660 million from private sector funds, and \$24 million from international cooperation.

German-Tunisian startup Bako Motors makes three-wheelers that are powered solely by the sun. These low-maintenance, eco-friendly vehicles with solar panels on their roofs can already be seen...

Tunisia has very good solar radiation potential which ranges from 1800 kWh/m<sup>2</sup>; per year in the North to 2600 kWh/m<sup>2</sup>; per year in the South. Tunisia has 1,800MW of solar energy potential which is until now yet to be harnessed. ... More than 50,000 Tunisian families get their hot water from the sun based on
