What is SunShare Community Solar?

SunShare Community Solar is an easy and affordable way for you to enjoy clean, renewable energy without installing solar panels on your roof. Instead, we build large solar projects called community solar gardens with thousands of panels.

Are there renewables in the Faroe Islands?

"In the Faroe Islands, we are blessed with renewables: we have wind, hydro and some sun in the summer; we also have tidal and wave power where we can see great potential," says Nielsen. Since announcing its green vision in 2014, SEV has already done a lot to increase the share of renewables in its energy mix.

Will the Faroe Islands use more green energy in 2025?

Even more conservative scenarios predict that the Faroe Islands' current electricity consumption of approximately 350,000 MWh per year will increase to approximately 450,000 MWh in 2025. "The current discussion recommends using more green energy and especially the potential for wind energy is quite high," says one of the islanders.

What are the biggest private companies in the Faroe Islands?

The biggest private companies of the Faroe Islands is the salmon farming company Bakkafrost, which is the largest of the four salmon farming companies in the Faroe Islands and the third biggest in the world. Klaksvík, on the island of Borðoy, is the Faroe Islands' second-largest town.

Can the Faroe Islands be a smart microgrid?

"The energy system in the Faroe Islands is an impressive example of how all available energy resources can be integrated into a smart and innovative microgrid," says Vehkakoski.

Book your Faroe Islands accommodation before you book anything else. My quick search for available accommodations on the Faroe Islands was very eye-opening. With just a handful of hotels, a few B& B's, and several private rentals, Faroe Islands had a grand total of 74 properties for us to choose from.
