

Can Sweden make a battery?

Both factories Northvolt Ett (set to be the largest battery-making factory in the world once fully operational in 2022) and Northvolt Labs, which collaboratively aim to have 150GWh of annual production by the end of the decade, use Sweden's large amount of renewable hydroelectric power to produce cells as sustainably as possible.

Where are Northvolt batteries made?

Our first battery gigafactory is being established in northern Sweden and serves as Northvolt's primary site for manufacturing of active material, cell assembly and recycling. Our research & development facility is located 100 kilometers west of Stockholm.

Is Northvolt a sustainable battery manufacturer?

Northvolt's commitment to sustainability extends further, however, encompassing sourcing of raw materials, production, transportation of goods, and novel recycling technologies. Unlike many battery manufacturers, Northvolt is integrating as much of its supply chain in-house, as it looks to sustainable solutions.

What makes Northvolt the world's greenest battery?

Join us! Sustainability A big contribution to Northvolt's low-carbon footprint comes from our commitment to power our factories with clean, renewable energy. Combine that with minimal resource use alongside battery recycling and you have the blueprint for the world's greenest battery. Recycling No battery lives forever.

Can Europe build a supply chain for lithium-ion batteries?

The Swedish startup, which was valued at US\$12bn by investors in June 2021, currently leads European efforts to build a domestic supply chain for lithium-ion batteries, which are needed to power electric vehicles.

Will Volvo build a Gigafactory in Sweden?

“Volvo and Northvolt to Build Gigafactory in Sweden”. Autoweek. Retrieved 2 April 2024. ^Westerheide, Carla (18 July 2023). “Northvolt and Volvo pave the way for cell factory in Gothenburg”. electrive.com. Retrieved 2 April 2024. ^Volvo Cars, Media Relations (30 October 2023). “Volvo Cars initiates process to take full ownership of NOVO Energy”.

Northolt is a firm of many firsts. Not only has the Swedish startup built Europe's largest battery manufacturing plant, but at the end of December 2021, it became the first European company to fully design, develop and assemble a battery at ...
