Tangent. Russia's energy crisis may also endanger U.S. climate policies. Natural gas company Cheniere is lobbying the Biden Administration for an exemption from regulations that limit ...

The water (energy) will pour out of a big tap, but only trickle out of a tiny tap. For your home system, you want power sufficient to run real world equipment (a big enough "tap"). For example, a kettle typically uses 2 kW for a few minutes. If your battery can deliver a power output at 2kW or above then it will all come from your cheap ...
