

Will Greece's new energy policy reform benefit PV projects?

Greece's new energy policy reform is expected to benefit storage projects and speed up the licensing process for PV projects. The Greek government has completed its wide-ranging policy framework that is expected to reshape the energy sector and also benefit energy storage projects. The bill is now headed to parliament.

How do the Green Deal and 'fit for 55' measures help Greece?

The measures contribute to achieving Greece's climate and energy targets, as well as the objectives of the European Green Deal and 'Fit for 55' package, by enabling the integration of renewable energy sources in the Greek electricity system.

What res projects are being built in Greece?

As Greece runs an ongoing plan focusing on decarbonisation, a significant pipeline of RES projects (mainly large-scale PV plants) is being constructed and developed (with PPC's leading position, through its affiliate PPCR) throughout the territory and especially within depleted lignite fields.

How much energy is produced in Greece in 2023?

According to the latest published Monthly Energy Bulletin issued by IPTO for May 2023, the total energy demand rose to 3.643 GWh, whereas the total energy production in the Greek territory was 3.820 GWh, 49.9% of which (1.907 GW) came from RES plants.

What is the energy storage policy framework?

The energy storage policy framework will comprise part of the country's upcoming environmental bill, which is the second major legislative effort of the current government since taking office in July 2019. The first major bill passed in July 2020, speeding the renewables licensing process and introducing an electric vehicles policy.

Will Greece's new net metering policy boost investment?

Stelios Psomas, policy advisor at the Hellenic Association of Photovoltaic Companies (HELAPCO), told pv magazine that the new net metering policy is expected to boost investment in this sub-sector given that Greece's distribution network did not always process net metering applications in a timely manner.
