

What is solar power in Tonga?

The solar PV system is part of a 1.25 MW portfolio, where power will be sold to the island's villagers through pre-paid net metering. The Asian Development Bank, with the help of other institutions, is supporting the deployment of solar on the Pacific Ocean's small island nations. Tonga has a goal of 50% renewable energy by 2020 and 70% by 2030.

How does the Tonga solar plant work?

Once operational, the solar plant will sell its electricity to Tonga's power utility, Tonga Power Limited (TLP), through a subsidized tariff, which is assessed by the ADB for each project. The island's citizens purchase the electricity through prepaid metering.

What is shopsolar?

At ShopSolar.com, we are on a mission to make solar simple, transparent & affordable. For years now, traditional solar companies and local installers have been over-charging customers for extremely basic solar panel systems (without batteries). At ShopSolar, we offer a wide variety of payment plan options to meet each customer's needs.

What equipment does shopsolar offer?

In addition to solar energy kits, ShopSolar offers individual equipment pieces. These include solar panels, generators, batteries, inverters, lighting, emergency power supplies and solar fridges and freezers. ShopSolar ships throughout the continental U.S., and most orders arrive within five to 10 business days. There is a 30-day return policy.

How many solar PV plants will be built in Tonga?

The overall project comprises nine individual solar PV plants that will have a cumulative capacity of 1.25 MW to be built on Tonga's remote islands. Some will feature additional storage systems, to power households, public facilities, and medical facilities.

Where is Tongatapu solar farm located?

Prime Minister of Tonga today announced the official launch of the 6-MW power purchase agreement (PPA) based Tongatapu Solar Farm located at Fualu, Tongatapu, which has supplied electricity to over 10,336 households since August this year.
