

Why do we need solar power in Tonga?

Renewables like solar are a significant means for Tonga to expand energy access, stabilize power grids as well as reduce pollution. Considering the shortage of solar expertise and finances for countries like Tonga, the role of independent power producers and the practice of PPA provide solid support to smooth the way for solar deployment.

What does Sunergise's 6MW solar system mean for Tonga?

As Hu'akavameiliku, Prime Minister of Tonga said at the ceremony: "The successful completion of the Sunergise's 6MW Independent Power Producer solar generation system today, demonstrates the major role renewable energy independent power producers play towards achieving our 70% target by [the]end of [the]year 2025."

What is a solar farm & how can it help Tonga?

Producing energy since August this year, and providing power for up to 10,336 households, the Solar Farm is helping The Government of Tonga pursue its National Energy Roadmap plans to see up to 70% of Tongatapu's electricity generation sourced from renewables by the end of 2025.

Does Tongatapu need a solar power plant?

Tongan Prime Minister Hu'akavameiliku Siaosi Sovaleni, who was also at the launch, said the plant indicates the need for independent power - like solar energy - to achieve their National Energy Roadmap. There is an aim to have up to 70 per cent renewable energy use in Tongatapu by the end of 2025.

Who are Sunergise New Zealand & Tonga Power Limited?

This solar project was completed under the partnership between Sunergise New Zealand Limited and Tonga Power Limited with support from the Asian Development Bank (ADB). Sunergise led the construction and meanwhile united local Tongan civil, mechanical and electrical sub-contractors to the team.

Why is Tongan King Tupou VI opening a solar power plant?

Tongan King Tupou VI at the official opening of the biggest solar power plant in the South Pacific. Photo /Sunergise Tongan Prime Minister Hu'akavameiliku Siaosi Sovaleni, who was also at the launch, said the plant indicates the need for independent power - like solar energy - to achieve their National Energy Roadmap.

It is reportedly the largest solar power project in the South Pacific, replacing 18% of current diesel-fueled power with solar energy on the Tongatapu island. This solar project was completed under the partnership ...

A solar-plus-storage project combining 300kW of PV and a 2MWh battery energy storage system (BESS) has been installed in the Polynesian archipelago nation of Tonga. The project on the island of Vava'u ...

Tonga's first photovoltaic solar facility to introduce a stabilising capacitor and micro-grid control system was technically handed-over as the Nanyo Boeki Kaisha Ltd., Japanese-lead consortium of contractors and ...

That may seem like a long time, but on the country's main island of Tongatapu, complete recovery took five weeks with a crew of 150 people. "Australia's support to transition communities to solar power is to helping increase the resilience of ...

Comprising three interconnected 2.3MWp ground mounted solar arrays in western Tongatapu, the construction phase successfully met the extreme challenges presented by the 2022 Hunga Tonga-Hunga Ha'apai ...

We currently have a fully functioning Independent Power Producer solar system from Singyes Solar, with a capacity of 2MW. Singyes owns, generates and maintains this solar plant. Once ...

This complete solar system is designed for office establishments and homes. Here's what this package contains: 16 X 12V 200Ah deep cycle battery; 4 X 5kW Pure sine wave inverter; 48 X 300Wp mono solar panels; ...
