

What is a Tsun microinverter?

TSUN, the global leader in microinverter technology, offering the No.1 powerful microinverter, plug & play solar kits, and advanced energy storage systems. Designed for residential, commercial, and industrial applications, TSUN products offer reliable, sustainable energy to power your future.

What is Tsun's new 3000W microinverter?

With a brand-new topology, it is the first 3000W high-power single-phase microinverter in the industry, bridging the market gap between traditional micro inverters with power above 2000W and string inverters below 6000W. Ms. Xue, the Sales VP of TSUN speaking at the launch event. Image: TSUN

Which PV modules are compatible with Tsun?

Ms. Xue, the Sales VP of TSUN mentioned. With an input current of up to 18.5A, TITAN series are perfectly compatible PV modules of various sizes and power ranges, especially the mainstream 182mm and 210mm large-sized modules.
