

How important is Ukraine's energy sector?

Ukraine's air defences provided some protection, but the scale of the attack and the resulting disruption highlighted once again the vital strategic importance of Ukraine's energy sector, as well as the ever-present risks to the country's energy supply.

How has Russia impacted Ukraine's energy system?

Ukraine's energy system has been targeted since Russia launched its full-scale invasion of the country in February 2022. These attacks on key infrastructure have recently increased and intensified, posing a huge threat to reliable access to power, heating and communications services across Ukraine this winter.

How important is energy security in Ukraine?

These attacks on key infrastructure have recently increased and intensified, posing a huge threat to reliable access to power, heating and communications services across Ukraine this winter. This special report lays out 10 key energy actions to reinforce the country's energy security - essential to its security overall - at this critical juncture.

What is Ukraine's energy security & the coming winter?

This special report from the IEA, Ukraine's Energy Security and the Coming Winter, provides an energy action plan for Ukraine and its partners to help the country meet its energy needs through the challenging months ahead. Ukraine's energy system has been targeted since Russia launched its full-scale invasion of the country in February 2022.

How much power does Ukraine have?

In February 2022, Ukraine's mainland power system included over 1,500 generation plants across seven regional power systems, with a total capacity of 59 GW. Of this capacity, 49% came from fossil fuels (coal and/or gas), 23% from nuclear power, and the rest from solar (13%), hydropower (11%), wind (3%), and biomass/biogas (<1%).

What is the Energy Act for Ukraine Foundation?

The Energy Act for Ukraine Foundation is equipping schools and hospitals with solar panels and energy storage systems to nullify Russian attacks on the country's power plants. Yuliana Onishchuk, founder of the Energy Act for Ukraine Foundation. Courtesy of the Energy Act for Ukraine Foundation
