In addition to helping solve some of the key challenges around unlocking the delivery of housing and infrastructure projects, you will join us in working on innovative projects in renewable energy (solar, battery storage and energy networks) and decarbonisation (carbon capture storage, transport and technology).

BASF's recently-created subsidiary is focused on finding new areas for the German chemical company to diversify into that nonetheless relate to its core business activities. BASF New Business (BNB) has a distribution and sales deal in place with Japan's NGK for the NAS batteries. The pair entered into the partnership in 2019.

A BASF representative told Energy-Storage.news yesterday that the chemicals company is accustomed to working on "different levels of the value chain". As such, BASF is already involved in supplying cathode materials for lithium-ion battery manufacture, as a raw materials supplier to the redox flow battery space, and as systems supplier to ...

BASF is using NGK Insulators' sodium sulfur batteries as its entry point into the energy market, with the German chemical company signing up as a sales partner to the Japanese manufacturer. NGK is currently the only maker of the large-scale sodium sulfur (NAS) batteries, which have been in existence for over 15 years and can store several ...

"With the NAS MODEL L24 our customers will be able to reduce their initial investment in battery storage system as well as save on long-term project costs, approximately 20% over project lifetime," Frank Prechtel, managing director of BASF Stationary Energy Storage said. Read more Energy-Storage.news coverage of the NAS Battery.

As the name implies, BASF Stationary Energy Storage is the energy storage subsidiary of German chemicals company BASF, which has been working with NGK since 2019 on activities related to commercialisation, distribution and marketing of the sodium-sulfur energy storage devices.

We, the team of BASF Stationary Energy Storage, fully support you in finding the appropriate energy solution for your individual use case. We are selling stationary storage batteries based on the proven NAS technology, produced by NGK Insulators Ltd.
