

In support of Kenera's strategy to expand in renewable energy markets, this 10-year partnership brings together CPH2's Membrane-Free Electrolyser(TM) technology and Kenera's industry-leading manufacturing capabilities to supply hydrogen electrolyzers across Europe and provides Kenera with an exclusive technology licence across the Middle ...

Rebecca Clarke, SVP Kenera, (KCA Deutag's technology and energy transition business), gives her thoughts and insights. It's my belief that women encounter numerous hurdles in the energy sector, particularly in achieving senior and technical roles where they are currently underrepresented, with only 32%^[1] of middle management roles held by ...

The KCA Deutag Group is committed to playing an active role in the energy transition, investing in and delivering solutions that ensure a sustainable and responsible future. Our Kenera business unit drives our efforts to support the energy transition. As part of the KCA Deutag Group, Kenera brings together over 130 years of experience ...

The award will see Kenera custom-build a 10.3 Megawatt Hour (MWh) BESS that will optimise energy efficiency at Urenco's facility in Gronau, Germany, supporting a reduction in energy costs and carbon emissions. ...

Creating the space to be brave - An equitable future for new energy. Helmerich & Payne announce agreement to acquire KCA Deutag; KCA Deutag appoints new SVP Kenera Urenco selects Kenera for Battery Energy Storage System; Equinor selects KCA Deutag's Kenera for major electrification project on Askepott rig

Thorsten Dirks, Vice President of Kenera manufacturing and Managing Director of Bentec commented: "This agreement is an important milestone in Kenera's development, supporting us in creating innovative technological solutions and allowing us to play an active role in the energy transition.

The Kenera Battery Energy Storage System (BESS) is a modular power management solution designed to help decarbonise your existing operational set up, optimising asset performance through a reduction in operating costs, whilst taking a ...

Kenera is committed to delivering innovative solutions and quality products in the hydrocarbons and renewables sectors. We aim to expand our current offerings to key customers in core markets while playing an active role in the energy ...

The energy sector is transforming by aiming to reduce emissions, increase efficiency and diversify fuel sources. This change brings both challenges and opportunities for women, who are underrepresented and often

face career barriers. Rebecca Clarke, SVP Kenera, (KCA Deutag's technology and energy transition business), gives her thoughts and insights.

More for KENERA ENERGY SOLUTIONS LIMITED (SC700732) Registered office address Kca Deutag Group Headquarters, Bankhead Drive, City South Office Park, Portlethen, Aberdeenshire, United Kingdom, AB12 4XX . Company status Active Company type Private limited Company Incorporated on 4 June 2021 ...

Kenera will have three dedicated segments covering innovative services, technology & engineering, and manufacturing, and is being established to deliver the Group's strategic growth aspirations in current and new markets for both ...

The award will see Kenera custom-build a 10.3 Megawatt Hour (MWh) BESS that will optimise energy efficiency at Urenco's facility in Gronau, Germany, supporting a reduction in energy costs and carbon emissions. Urenco will utilise the system to help store electrical energy from an integrated solar farm at the plant to enable that power to be ...

Kenera, part of the KCA Deutag Group, provides innovative solutions in the hydrocarbon and clean energy sectors. We are a leading rig equipment Original Equipment Manufacturer (OEM) and service partner offering drilling rig solutions, aftermarket service support and ...

Providing maintenance, facilities management, servicing and support for the energy sector to the highest safety standards TECHNOLOGY & ENGINEERING Creating efficiencies through technology and engineering applications for oil & gas, ...

Kenera has developed tools to aid our crews and make procedural compliance a choice that people consciously take. Our innovations in this area support personnel in making the right choice with the right information and with the understanding that a course of action will affect not only their own safety, but the safety of others and the overall ...

We are creating efficiencies through technology and engineering to develop applications for oil & gas, emissions reduction, green fuel and clean energy. Our multi-disciplinary technology & engineering division seamlessly integrates into ...
