While Bonaire is a popular destination in its own right, it's also a great starting point for exploring the nearby islands of Sint Eustatius and Saba. Sint Eustatius, also known as Statia, is a small island located just south of St. Maarten. The island is known for its historical significance, with several museums and monuments dedicated to its ...

Reaching Bonaire, Sint Eustatius, and Saba usually starts with a flight to one of the larger neighboring islands, such as St. Maarten, before taking a smaller regional aircraft into the islands' respective airports: Flamingo International Airport in Bonaire, F.D. Roosevelt Airport in Sint Eustatius, and Juancho E. Yrausquin Airport in Saba. ...

Sweden's Vattenfall announced plans to invest more than EUR5 billion (\$5.3 billion) in Germany's renewable energy market by 2028, reflecting the company's commitment to support the country's transition to clean energy. With Germany expected to see electricity demand rise by 40% by 2030 and potentially double by 2045, Vattenfall sees significant growth ...

Bonaire, Sint-Eustatius, and Saba are in the selected group of 30 islands chosen by the European Union (EU) to participate in the "30 for 2030" project. The islands, which were selected after an extensive selection process, can count on intensive support from the EU to realize their ambition to have fully sustainable energy facilities by 2030.

Vattenfall senior vice president and head of strategic development Andreas Regnell said: "Vattenfall has high ambitions to grow within renewable energy production in the markets where we operate. In this project we can contribute with our expertise and experience and the unique Moorburg site that has the infrastructure that is necessary for ...

19 ???&#0183; This draft Energy Storage Strategy and Roadmap (SRM) update conforms to the language set forth in the "Energy Storage System Research, Development, and Deployment Program" as required by the Better Energy Storage Technology (BEST) section of the Energy Policy Act of 2020 (42 U.S.C. 17232(b)(5)). Specifically, this draft Energy Storage SRM ...

Battery storage systems have the potential to play a key role in integrating renewable energy into the power grid. Vattenfall operates large battery storage systems in combination with wind and solar parks at several locations in Europe. These combined systems, also known as hybrid parks, balance the feed-in for greater stability of the power grid.
