Advanced Battery Management System (BMS) with current limiting function. Excellent high-temperature performance. High cycle life and service life. 1C high-performance lithium battery. High energy density and conversion efficiency. Integrated battery management system for enhanced performance. Compatible with most inverters and chargers.

Vestwoods is dedicated to bringing new ideas into the green energy field with new technologies of intelligent lithium battery, cloud service, and all related material science and IoT tech. We believe products such as ESS solutions, and mobile charging stations will bring significant changes to the ways of our life in the near future.

Vestwoods 5.12kWh Lithium Battery. This cutting-edge battery is designed to deliver reliable power for a range of applications, from residential solar systems to off-grid cabins. With its high energy density and long lifespan, the Vestwoods battery offers superior performance and durability. Vestwoods 5.12kWh Lithium Battery 48V 100Ah Key Features:

Vestwoods VT48100B: Li-ion Battery System of LiFeO4 for Communication Base Station Power. The VT48100B is an energy storage module based on Li-ion technology. Suitable for various base stations, it provides intelligent communication interface, high accuracy of current and voltage, advanced algorithm of SOC & SOH -- and is easy to install and ...

For over 20 years Bahamas Battery & Tyre Specialist, Ltd. has been a family owned and operated business. We offer top brands of batteries and tires replacement, plus a wide range of auto repair services. Our expert tire & battery technicians can help you make important auto care decisions based on your specific driving needs. Come in and see us ...

Lithium Battery Module VT48200B Intelligent lithium battery, integrated with self-designed BMS, developed and produced by Vestwoods can be widely used in various telecom and energy storage system such as indoor distribution stations, integrated base stations, edge stations, micro-cell stations, FTTX

The Vestwoods 5.12kWh 48V 100Ah Lithium Battery is a deep cycle lithium iron phosphate (LiFePO4) battery designed for off-grid solar energy storage, backup power, and other applications. It has a nominal voltage of 48V and a capacity ...

Battery Products. Our backup batteries are designed to prioritize reliability and high performance to ensure you can keep your communication systems running during power outages, preventing any potential downtime. learn more & VC ...
