

A Reliable Subsea Pressure-Compensated Submersible Battery. The subsea community has relied on our SeaBattery Power Module for over 30 years. The durable design works in the most demanding subsea applications. This battery has a pressure compensated design and an 11,000 m depth rating. 12V, 24V, and 48V configurations are available. ...

Cygnus" original diver-held subsea multiple-echo ultrasonic thickness meter, designed for use by divers undertaking subsea maintenance and surveys 3 decades ago... and today it is still an industry standard. ... 9.4 x 3.4 inch (inc. battery pack and transducer head) Weight: 35 oz (inc. batteries) Operating Temp. 14&#176;F to 122&#176;F: Environmental ...

Shop online for BESTON 2-Pack LP-E12 Battery Pack and Rapid USB Charger for Canon EOS M, Rebel SL1, PowerShot SX70 HS Cameras at Ubuy Wallis and Futuna Islands. Get the best deals and fast shipping!

As a trusted leader in lithium-ion battery packs, we specialise in the design and manufacturing of custom battery packs for OEMs, with over 40 years of expertise and more than 15 million products delivered globally. Our commitment to innovation and quality ensures OEMs receive reliable, high-performance solutions that meet their unique power requirements.

A diver-held subsea ultrasonic thickness testing device designed for in water survey and underwater inspection in-lieu of drydocking, providing accurate and reliable through coating measurement. ... 238 x 85 mm (inc. battery pack and ...

Specifically designed for divers undertaking ultrasonic thickness measurement (UTM) of underwater structures. The Cygnus Underwater diver held tester has been built to withstand harsh subsea environments while providing quick and accurate metal thickness measurements through coatings or heavy corrosion. This diver-held thickness tester is simple to operate using 3 ...

Alexander Battery Technologies provides each customer with a cell or cell options for their new project, potentially based on a huge number of factors. The common choices provided will be whether a 21700 battery pack or an 18650 battery pack is the preferred option. The choice made at this stage will directly drive the performance of your ...

Cygnus Instruments was incorporated in 1983. Our original line was focused on the NDT of ship hulls but has grown to include a full range of UT thickness meters as well as Ultrasonic Hatch Leak Detectors, Ultrasonic Tightness Testing and Flooded Member Detection equipment.

Our team, headed by a dedicated project manager, develops your custom battery pack design from concept

through to manufacturing. Working collaboratively with your team, we work through DFMEA, drawings, PFMEA, PPAP submissions, sampling, tooling, battery certifications and approvals, testing, supply chain and manufacturing ramp-up.

At Alexander Battery Technologies, we bring over 40 years of expertise in custom battery pack design and assembly, serving a wide range of industries from medical, robotics and automotive to consumer electronics and many other industrial applications. We specialise in developing bespoke solutions that meet your business's exact requirements and deliver reliability, ...

At Alexander Battery Technologies, we bring over 40 years of expertise in custom battery pack design and assembly, serving a wide range of industries from medical, robotics and automotive to consumer electronics and many other ...

Offshore operators who deploy subsea vehicles require high-capacity batteries to execute longer, more complex, and efficient missions. The SEAPOWER pressure neutral batteries meet and exceed expectations with the industry's highest ...

The Imenco Nautronix range of Subsea Power Systems and Battery Packs provide a highly reliable energy source designed for a range of applications in harsh subsea offshore environments. Imenco Nautronix has an extensive ...

In the world of medical devices, battery-powered equipment is a growing sector of modern healthcare, providing vital support and functionality across a spectrum of applications, both in the hospital and in the home. From Oxygen Concentrators to Lifters & Mobility Equipment, Respiratory Care devices, and Surgical Drills, the demand for reliable and high-performance ...

Cygnus" original diver-held subsea multiple-echo ultrasonic thickness gauge, designed for use by divers undertaking subsea maintenance and surveys 3 decades ago... and today it is still an industry standard. ... 238 x 85 mm (9.4 x ...

The AAPowerLink project is set to deploy between 17GW and 20GW of solar capacity and between 36.42GWh and 42GWh of energy storage to connect Australia's Northern Territory with Singapore via 4,300km of subsea cable and supply power to the territory's capital, Darwin, and the surrounding region.
