

How much money does XRG have?

XRG is the latest in a series of investment vehicles to emerge from Abu Dhabi, whose sovereign and investment funds collectively have about \$1.7tn in assets, according to GlobalSWF, a data company tracking the sector. The funds do not disclose their assets.

What is XRG's international gas platform?

XRG's International Gas platform will build a world-scale integrated gas portfolio to help meet the anticipated 15% increase in global natural gas demand over the next decade, as a lower carbon transition fuel, as well as meet the expected 65% increase in demand for LNG by 2050.

What is XRG's low carbon energy platform?

XRG's Low Carbon Energies platform will invest in the solutions needed to meet increasing demand for low carbon energies and decarbonisation technologies to drive economic growth through the energy transition. The market for low carbon ammonia alone is expected to grow by between 70-90 million tonnes per annum by 2040, from close to zero now.

Will XRG buy Covestro?

Originally planned as a private equity investment vehicle, according to multiple sources, XRG, which Adnoc says will be one of the top five chemicals companies in the world, could include the German chemicals company Covestro and a range of other assets. The board of Covestro approved a EUR14.7bn takeover offer from Adnoc last month.
