In 2021, energy supply in Zimbabwe is a mix of hydropower (70%), coal (29%) and renewable energy sources, according to the Zimbabwe Energy Regulatory Authority. Over the past five years, independent power producers (IPPs) have explored alternative energy sources such as solar, wind, geothermal, biofuels and biomass.

Zimbabwe's primary issue in its energy sector's inadequate and aging infrastructure continues to be a challenge. There are about four coal-powered thermal stations in the country, namely Munyati Power Station, Harare Power Station, Bulawayo Power Station, and Hwange Power Station, which have operated since the country gained independence ...
